November 2016

## MCSA 2017 Elections

Hello fellow MCSA members!

As we look forward to 2017, we are looking for members to serve on our Board of Directors. This is an excellent opportunity to serve MCSA, and to grow and develop MCSA into a bigger and better organization.

We look forward to talking with you about any nomination for any and all positions that are open for nominations.

By the way, the open positions for 2017 election are President, Vice-President, Secretary, Treasurer, Executive Officer, Junior Division Chair, and one Trustee position.

Do you want to know what the duties and responsibilities are? Send us a message. The Nominating Committee will contact you to discuss. Also, a good source is to contact the current office holder and get it first hand by emailing them from the MCSA web page [www.masoncountysa.com](http://www.masoncountysa.com), Board of Directors page.

Thank you,

Bruce Clapp

President – Mason County Sportsman's Association

Direct (360) 402-9555

[president@masoncountysa.com](mailto:president@masoncountysa.com)

[www.masoncountysa.com](http://www.masoncountysa.com)

<https://www.facebook.com/masoncountysportsmansassoc>

**Nominating Committee Chairman Michael Bigelow** can be reached directly at either [mbig35160@comcast.com](mailto:mbig35160@comcast.com) or (425) 260-9373.

## Nominees for the 2017 MCSA Board positions

Here are the current confirmed nominees for MCSA positions.

- **President:** Bruce Clapp
- **Vice President:** *OPEN*
- **Secretary:** Lynn Ludeman
- **Treasurer:** *OPEN*
- **Executive Officer:** Jack Fitch
- **Junior Chair:** Allen Bragg
- **Trustee (one open position):** Harry Perkins

**At press time, we have no nominees for Treasurer or Vice President, so please do consider serving in this way if you have the ability to do so!**

**Mason County Sportsman's Association  
Board of Directors**

[mcsa\\_info@masoncountysa.com](mailto:mcsa_info@masoncountysa.com)

**President:** Bruce Clapp: 360-402-9555  
**Vice President:** Peter Laserinko: 360-229-3164  
**Treasurer:** Jan Heck: 360-852-5583  
**Secretary:** Lynn Ludeman: 206-406-3562  
**Executive Officer:** Jack Fitch: 360-868-7041  
**Jr. Program:** Allen Bragg: 360-426-9157  
**Trustee:** Keith Vanderwal: 360-426-1114  
**Trustee:** Eugene Scherer: 360-426-2745  
**Trustee:** Ted Johnson: 360-463-7511

## MCSA Event & Training Schedule

- First Sunday 9:30 am: **USPSA Match**
- Third Sunday 4 pm: **Ladies of Caliber**
- First Tuesday 5 pm: **Practical Precision Competition**
- Second Tuesday 5 pm: **Action Pistol League**
- Third Tuesday 5 pm: **Tactical Carry Action Pistol League**
- Fourth Tuesday 5 pm: **2 Gun Action Pistol League**
- First Wednesday 6:30 pm: **General Membership Meeting** at PUD3 on Johns Prairie Road
- Second Wednesday 6 pm: **.22 Rifle Shoot**
- First Thursday 6 pm: **Steel Shoot**
- Second Thursday 6 pm: **NRA Winchester .22 Pistol Marksmanship**
- Third Thursday 6 pm: **NRA Winchester Self Defense Marksmanship**
- Fourth Thursday 6 pm: **NRA Winchester .22 Rifle Marksmanship**
- Friday 6 pm: **Bullseye**
- Weekend Classes: will resume in 2017
- Sunday, December 11, 2 to 6 pm: **MCSA Christmas Party** at Lake Limerick Inn

In addition to classes featured in this edition and on the list shown above, there are classes offered throughout the year such as becoming a **NRA certified Firearms Instructor, Personal Protection Inside the Home** and others. For the current schedule, please go to [Masoncountysa.com](http://Masoncountysa.com) and click on the "Club Calendar" tab.

If you have questions or comments, please contact Training Chairman Steve Worthington at **360-426-6486** or [357steve@gmail.com](mailto:357steve@gmail.com).

Look for more in-depth descriptions of our programs in future Newsletters!

## MCSA 2016 CHRISTMAS PARTY

Tickets are now available for our Annual MCSA Christmas Party at Lake Limerick Inn, 790 E. St. Andrews Drive, Shelton, WA 98584 on Sunday afternoon, December 11, 2016 from 2 – 6 pm. If you attended last year, you may remember that the food was great, we had some fun and useful door prizes and in general, we all had good cheer and enjoyed celebrating together!

**The menu is:** Roasted Turkey, Baked Ham, Mashed Potatoes, Gravy, Traditional Stuffing, Green Beans, Cranberry Salad, Rolls and Pumpkin Pie. Coffee, Tea and Soda provided. We will have a no-host bar, same as last year.

Tickets are \$25 each, includes tax/tip and you can either get them from me directly or you can pay on line, by using the PayPal tab on the Special Events tab on our web page. You can contact me at [mcsa\\_secretary@masoncountysa.com](mailto:mcsa_secretary@masoncountysa.com) or (206-406-3562) to make arrangements for your tickets. If you pay on the web page via **Paypal**, I will get your tickets to you!

**Please RSVP by December 1, 2016, as we'll need to let Lake Limerick know how many we will have attending.**

Our door prize pile is slowly growing from donations from MCSA members (Thank you Alex Lev, Bill Brennon, Mike Shaw, Gene Scherer, Fred Nachbar, Doug Dayton, Bill and Arliene Zeigler!) I've had a number of members tell me they will have something for this cause, too, so thank you in advance, Gordon and Esther Osberg, Madeline Miller and others who've mentioned their intentions to contribute. The Door Prizes are a really fun part of the party as well as being beneficial financially to the club. Please take a look around and see what you might have to donate, does not have to be firearm related. If you'd like to help solicit donations from local businesses, please let Lynn or Dan McCarty know so we are not doubling up on our "asks". Remember, any proceeds above the expenses go to be used for Charitable Giving, which includes the Jr. Program! Hope you can all come!

## MCSA Juniors go to Western Air Rifle Championship Seminar and Match

**Back Row:** Tristin Newby, Coach Bragg, Asst. Coach Nachbar, Austin Ellis, Jaden Miller, Blake Hardin, Jayden Rieck, Nurse Anita Madea. **Front Row:** Laurann Chambliss, Alex Esteban and Hannah Binder. All Photos taken by Faith Newby

MCSA recently helped send The Shelton High School Shooting Team to the Western Air Rifle Championship two-day seminar & Match in Oregon. The Seminar was taught mainly by US Olympic Shooting Team member Sarah Beard, who travels world wide for air rifle competitions. Topics included proper three position, mental training, triggering and aiming exercises, trigger timing, and match preparation. Sarah also coached the students one-on-one while shooting. Other presentations included how to use a journal to track techniques that do or don't work, to plan goals for improvement, how to get a college scholarship for shooting sports, and drills to use in practice to improve shooting skills. Our Coaches saw a demonstration of an electronic program that requires no bullet but traces the shooter's movements during shooting and shows their shot results. The students all had positive comments about how much they learned.

The Western Air Rifle Championship Match had 35 shooters competing from six different teams from the region. Three types of competitions were run consecutively: Olympic Offhand, Three Position Precision and Three Position Sporter. We competed in the Three Position Precision, against Oak Harbor High and Battle Ground, winning the top 3 placements (Blake Hardin placed 1st, Jaden Miller 2nd, and Jayden Rieck 3rd over all). We had eight students from Shelton competing and all did very well.

Congratulations are in order for ALL of our shooters. They have worked very hard, and have done it with grace, humor and determination to improve.

There are a lot of people to thank for making this event happen: Parent Faith Newby, helped out with chaperon duties and took all of the pictures. Ann Mecham, Gary Bigger, Alex Lev and Gordy Osberg have volunteered many hours this year assisting our team practice this year, not to mention reaching into their own pockets to help with costs so that each of the eight kids could go.

In Addition to the faithful four mentioned above, Fred Nachbar and Bill Zeigler, each contribute mightily. Fred Nachbar, is our Assistant Coach and was a chaperon on this trip. We suspect Fred was one of the people reaching into his wallet to make sure the eight Jr Shooters could go. Bill, who is the one of the range coaches, also acts as Raffle Chairman, providing the club with the funds to do

things like supporting our Jr. Program. Anita Madea, who, in addition to her help and support to the Jrs all year, put all of the reservations and other arrangements together. Anita also gave up her weekend to chaperon and is a general source of good cheer and

enthusiasm always.

And we would not forget Kathy Bragg, who got the new shooters set up with their appropriate CMP certification, so that they could compete, and Coach Allen Bragg, who generously shares his knowledge and encouragement with these kids – and look how they've been able to take this support and achieve their goals!

This could not have been accomplished without the efforts of the **MCSA Action Pistol League**, putting on 10 matches beyond their normal schedule to generate half of the money to pay for the trip. To match Action Pistol's effort, Dan McCarty got matching funds from local businesses, as well as from one private citizen! We can't thank those local business donors enough, so to really show our appreciation, please consider doing business with **Olsen's Furniture**, **Gillis Auto Center**, **Shelton Appliance Repair Plus** and **The Shopper**. The private citizen who donated is also an employee of **The Shopper**, so if you see **Jim Nutt** the next time you are at **The Shopper**, tell him Thank You!

# Clearing Your Pistol – Don't Cover the Ejection Port

By Cameron Benz

I recently had the good fortune to train with USPSA Grandmaster, Accomplished military and law enforcement trainer, and all around good dude, Ernest Langdon of Langdon Tactical Technology. During that two day class, a safety issue cropped up, and I thought I would share it with the MCSA members.

Let me first point out that this was not a safety issue that was a fault of the instructor, but rather, an illustration of why some gun handling techniques are bad. Generically, people say catching an ejected round is a bad idea. This idea, in and of itself, isn't really the problem. There are basically three ways a cartridge is handled when manually ejected from a firearm. They are ejected onto the ground, the **"grandmaster flip"**, and the covered ejection port catch (my terminology for lack of anything better).

Ejecting the round straight on to the ground is actually probably the safest, particularly if the handgun is rolled over so that the ejection port opening is largely pointed downward. It also becomes awkward at a certain point and once it becomes awkward, the safety pendulum begins to swing back towards the not favorable side of things. Some roll the gun over so that if the primer of the cartridge somehow contacts the ejector of the handgun, the blast will be somewhat mitigated, or that is the theory. This doesn't work as well when there is a Range Safety Officer standing to the right of the pistol being cleared.

The **"Grandmaster Flip"**, named for the tendency of the technique to be performed by USPSA/IPSC Grandmasters, is somewhat different. This involves understanding the ejection pattern of the handgun in question and then manually cycling the slide with the appropriate amount of force to give the cartridge just enough air time to allow the operator to catch the ejected cartridge. While there is a theoretical possibility of this causing injury in the event the ejecting round contacts the primer, I'm presently unaware of any actual cases of injury with this technique. And when this technique fails, the cartridge generally just ends up on the ground anyway.

---

---

## CAN YOU HELP?

As you all must know by now, there is a desire by many MCSA members to have an Outdoor Range. As the project is clarified, we are getting clearer about what our goals are and what we need in order to accomplish them. First on the priority list is land.

Do you have or know of a 40 – 100+ acre parcel of land that could be donated for use as an outdoor shooting range? Please speak up if you do, or have any ideas on how to accomplish this project!

Then we come to the last technique of the covered ejection port catch. I'm reasonably certain that when people talk about catching the ejected round being dangerous, this is what they mean. This is where the slide is manually cycled with one hand covering the ejection port. Presently, I'm aware of about half a dozen injuries where this went wrong and the round got caught with the nose of the bullet against rear upper surface of the chamber and primer being contacting the ejector. In a slow actuation, it might be OK, but if a hand slips and the slide drops shut, it can have enough force to discharge the round, usually resulting in an emergency room visit when the case blows out and sends shrapnel into the hand covering the ejection port. I think we can all agree this is bad.

In essence, if you need to clear a chamber, you're probably best off letting the round fall to the ground though I'm not bothered by anyone who knows their pistol well enough to perform a **"grandmaster flip"** as I am guilty of this technique frequently.

Until next month, shoot safe!

Covered Ejection Port Result - If you look closely, you can see the nose of this hollowpoint cartridge has caught on the back edge of the chamber while the primer area is close to if not actually contacting the ejector.

## You Can Help Steer MCSA's Future!

President Bruce Clapp has arranged for another survey for members for the coming year. If you would like to make your voice heard and help direct our club going forward, this is a great opportunity to do it! For those who are computer savvy, the link to the survey is <http://tinyurl.com/mcsa2017>

For those who would prefer a printed copy of the survey, please contact Lynn, [mcsa\\_secretary@masoncountysa.com](mailto:mcsa_secretary@masoncountysa.com) or [206-406-3562](tel:206-406-3562). If you have a family and more than one member would like to fill out a survey but are being told that they have already taken the survey, contact Lynn or Bruce, we can provide access.

## NRA/Winchester Marksmanship Programs

MCSA offers three of the NRA/Winchester Marksmanship programs year-round. The programs are designed to build skill and proficiency as well as provide lots of time to practice. Progression is self-paced and scores are challenging but attainable. Performance is measured against established par scores and any shooter who meets or exceeds those scores is entitled to the corresponding recognition awards for that rating.

Looking at each program a little more closely, **Pistol Qualification**, might be thought of as the next step beyond **Basic Pistol Phase 1 & 2**, intended to develop the skills that you would use in sport competition or even just everyday competent and confident firearm use. Any semi-automatic pistol or revolver may be used and all calibers will compete together, although most often at our range, .22 caliber firearms are used. Any sights may be used, and in our range, the courses are all shot from the bench, at 15 feet. Some drills have a time restriction to add to the participant's skill level, or other parameters, such as strong and weak hand or one hand only.

Once a shooter has achieved **Distinguished Expert** in the **Pistol Qualification**, they can then advance to **Defensive Pistol 1 & 2 Qualification**. Defensive Pistol programs are intended to be an extension of **Personal Protection in the Home** and **Personal Protection Outside the Home**. Advancing through the drills will help the participant become more familiar with their firearm, develop their ability to react and learn new personal protection skills. As the name suggests, a defensive caliber semi automatic or revolver firearm would be appropriate. It is permissible to use your concealed carry firearm if you have a current CPL and notify the Range Officer upon arrival for specific instructions to prepare for Defensive Pistol participation.

**Defensive Pistol 1** includes challenges such as loading and firing; loading, firing, reloading and firing; moving to cover while using the previously described details and so on. **Defensive Pistol 2** adds holstering drills to the challenges of **Defensive Pistol 1**, with a final stage of 180 degree turns to the left and right, draw and fire. **The Defensive Pistol** program is fun but challenging for many people, and it is quite an accomplishment to reach the **Distinguished Expert** stage. Having said that, we have quite a few MCSA members who have accomplished this. MCSA also provides the **Rimfire Rifle Qualification** program. Equipment is any .22 caliber rifle weighing 8.5 pounds or less. Any sights may be used, and in our range, we shoot from the bench at 50 feet. For this program the challenge is all about the score, each level requiring a better score.

For all of the **NRA/Winchester Marksmanship Qualification** programs, coaching is usually available. Our schedule is the second Thursday of the month for **Pistol Qualification**, third Thursday for **Defensive Pistol 1 & 2**, and the fourth Thursday for **Rimfire Rifle**. *Each begin at 6 pm, cost is \$6 for MCSA members and \$8 for non-members.* As always, please bring your safe firearm in a bag or box (unless you are carrying as described in the Defensive Pistol section above), along with your ear & eye protection and a brimmed hat. For any questions about these programs, you can contact the **MCSA Education Committee Chairman Steve Worthington, 360-426-6486** or [357steve@gmail.com](mailto:357steve@gmail.com). Another source of more information may be found at this link: <https://mqp.nra.org/courses-of-fire/>

MCSA members are welcome and encouraged to share their stories, and **Gary Bigger**, known for his generosity has offered his story here. Thank you, Gary! Your practice and persistence has paid off, wouldn't you say?!

*Almost 65 years since firing a .22 rifle I decided I wanted to learn how to shoot a hand gun. I turned to MCSA. I purchased a .22 single 10 revolver and started the Winchester pistol program as a non member. After a couple of months shooting, I determined that once a month shooting would never give me enough skill to complete the program. I joined MCSA in order to practice at least once a week. Finding the single 10 revolver was causing me to slow down other shooters, it was time to get a semi-auto. Even with the new gun and additional practice, it still took almost a year to get my Distinguished Expert rating. The Winchester program taught me correct trigger control and proper breathing methods. What a great learning experience that was. It was well worth the time investment. What I started out to accomplish in learning a skill, turned into a continuing challenge to improve.*

*My son gave me an old Coast to Coast .22 rifle in order to start the Winchester rifle course. Needless to say the old inexpensive rifle wasn't quite good enough to complete the rifle program. It was time to get a new bull barrel Savage bolt action. This made a significant difference in my consistency. After another year and many hours of practice, I was able to earn another Distinguished Expert rating. I would recommend either of the Winchester programs for people wanting to develop their shooting skill.*

**MCSA has many shooting programs.  
Check them out to see what might fit  
your personal interests.**

# Ladies of Caliber!

We are picking up steam nicely with our **Ladies of Caliber** monthly meetings. We've been enjoying the new faces who have been joining us more and more, one of our **Ladies of Caliber**, Dawn Brewer, has recently joined the club!

In October, Steve Worthington presented a taste of the "Refuse to be a Victim" class, showing options for personal protection and promoting some great discussion.

In September, Jennie VanTuyl presented a **Holster clinic**, with a bit on holster options and a lot of both dry fire/drawing from the holster practice as well as live fire/drawing from a holster.

Melinda has tried to maintain a woman only environment, as requested by some but feels it is also a great value for us to benefit from the knowledge and experience of many different teachers, some of whom are men. She has chosen her teachers carefully for the Ladies of Caliber meetings and we are grateful to the MCSA members who've agreed to teach. We've had wonderful instruction and experiences this year from **Bruce Clapp, Jack Fitch, Steve Hunter, Jennie VanTuyl, Steve Worthington** and of course, our leader **Melinda Schuffenhauer**. There was great interest in the *Duties and Responsibilities of the Concealed Carry Holder* with discussion so compelling, we voted to NOT shoot for that meeting and spend all 2 hours on the lecture topic! We experienced (some for the first time) **Intro to Steel Shooting, PPC, Action Pistol, Winchester Defensive Pistol** and it would be challenging to pick a favorite, we enjoyed them all!

**Some of us attended a Kathy Jackson concealed carry holster clinic presented by the Onalaska Chapter of A Girl and A Gun in February, which was well worth the time!**

Our **November** meeting will be a **Revolver Clinic**. Participants don't have to own a revolver, our instructors have some for us to practice what they teach us. In fact, we are encouraging women to leave their semi-auto's at home, unless they have a revolver they'd

like to get better with. We are asking those wanting to try the revolvers, to please bring a box of 50 rounds of .38 special, the American Eagle brand if possible as some of our revolvers are ammunition sensitive.

We are very much looking forward to the **December Ladies of Caliber** meeting, when MCSA member **Gary Mills of Curly Wolf Guns & Gunsmithing will present customization options for firearms, intended to increase comfort and ease for women**. We are sometimes a little more challenged to find a firearm that is comfortable to shoot and fits our hands. Gary can suggest and provide options that may help. For women wishing to attend this December meeting, *Please RSVP with what make & model of firearm you plan to bring by Monday, December 12*, so that Gary can have appropriate tools with him. He'd rather not bring his whole shop! For those who struggle with disassembly, Gary has some tools that can help with that, too. Please call or email Lynn, **206-406-3562**, or [lynnl@hcc.net](mailto:lynnl@hcc.net) with your **rsvp** and firearm details.

**Ladies of Caliber** leader Melinda Schuffenhauer is working on our 2017 schedule for meeting topics but says she is open to any requests for topics of new things to learn more about, or requests for repeats. As always, friends and family are welcome! We'll be participating in the **Cabela's Women's Weekend** events next year, dates for those women's weekends at Cabela's to come.

Women interested in more classes and seminars might like to consider attending the **Onalaska chapter of A Girl and a Gun winter clinic**. They will host Kathy Jackson and her training partner on December 4th, with a clinic on Handgun Retention. If any of you have ever been told "you'll just have an attacker take it away and use it on you," handgun retention is all about keeping a would-be attacker from gaining access to your firearm. There are simple techniques to avoid this, available to even the most petite of women. This seminar is open to couples, \$50 per couple or \$35 for a single. This is a rare opportunity for the men in your life to see what we do and learn something that you can practice together. Bring snug fitting leather or garden gloves, and if you have a "dummy gun", replica of your carry firearm, please bring it. No functional firearms will be allowed within our working spaces during this class. After the initial safety briefing, we will disarm together and will check all firearms into a secured area before proceeding to the hands-on part of the program.

*(continued on page 7)*

## Ladies of Caliber

(continued from page 6)

**Sunday, December 4, 11:30 for registration, clinic starts promptly at noon. Location is the Lewis County PUD in Chehalis on Pacific Street. \$50 per couple or \$35 for a single. The *A Girl and A Gun* club members bring food to share, and encourage any attendees to do the same - finger food that does not need to be heated - simple. They provide the plates and napkins.**

**For more information or to sign up, please e-mail Jennie VanTuyl, [jenvant@centurylink.net](mailto:jenvant@centurylink.net)**

Anyone can join the A Girl and A Gun Facebook page by going to [www.agirlandagunclub.org](http://www.agirlandagunclub.org), under the chapter, choose Onalaska. Any events are listed on the Onalaska FB page.

### Ladies of Caliber Meeting Schedule:

**November 20: Revolver Clinic, 4 to 6 pm**

**December 18: Curly Wolf Guns & Gunsmithing, 4 to 6 pm**

**For all of the Ladies of Caliber meetings, please bring your firearm in a loaded bag or box, approx. 50 rounds of ammo, your ear, eye protection and a brimmed hat.**

**MCSA members - \$ 6.00, non-members \$ 8.00.**

For any **Ladies of Caliber** questions, please contact **Melinda Schuffenhauer** 360-999-8463

Call, text or FB message Melinda with requests for future meeting topics!

Check out our Facebook group **Ladies of Caliber at MCSA**.

## Newsletter

Regarding the content of this Newsletter, we gladly consider article submissions from any member on topics of their choosing! Please send your articles, ideas for future topics to cover, suggestions or feedback to [lynnl@hcc.net](mailto:lynnl@hcc.net).

## Raffle News

The AR-15 Style raffle draws December 7th, so we have one month to sell those tickets.

**Mason County Sportsman's Association, Inc.**  
**Fund Raising Raffle**  
Drawing is December 7, 2016

**Eagle Arms-Eagle-15 Carbine**

- .223 Wylde caliber (works with 5.56 or .223)
- 16" Chrome Moly Straight Taper Barrel
- 1-30 round Magpul magazine included
- Optics ready carbine
- Model Eagle-15 ORC
- 6-Position collapsible stock
- Upper/Lower Forged 7075-T6 Aluminum
- Standard Charging Handle

Tickets may be purchased from MCSA members or at Renegade Guns 1912 Olympic Hwy. N. Shelton, WA 98584 \$2.00 donation per ticket  
You need not be present to win  
Drawing is at our December Monthly Membership Meeting (Maximum 1,200 tickets sold)

MCSA is a charitable 501(c)(3) non-profit organization and donates to local charities and fully supports the Shelton High School NJROTC program.

The new compact handgun, the Springfield Armory XD9 tickets are also available now, that raffle will draw on Feb. 1, 2017.

**Mason County Sportsman's Association, Inc.**  
**Fund Raising Raffle**  
Drawing is February 1, 2017, at our monthly meeting.  
Must be 21 years of age to purchase. (Maximum of 1,000 tickets sold.)

**Springfield Armory**  
**XD® MOD.2® - 3" SUB-COMPACT MODEL 9mm**

Tickets may be purchased from MCSA members or at Renegade Guns 1912 Olympic Hwy. N. Shelton, WA 98584

- Springfield Armory XD-9 Mod. 2
- Semi-auto 9mm Pistol
- Striker Fired for Consistent Trigger Pull
- 3" Barrel Sub Compact
- Flat Dark Earth and Black colors
- New Grip Zone Stippling
- Magazine Capacity 13+1 and 16+1
- Forged Steel Slide

Note: MCSA is a 501(c)(3) charitable non-profit.

Please consider helping this fund raising effort by taking 10 or 20 raffle tickets to sell, especially to non-members.

Bill Z. can be reached at (206) 919-0488, or at the range most afternoons or Monday mornings. All ticket sellers of the AR-15 carbine need to get Bill the stubs and monies before the December 7 drawing, especially if you have unsold tickets.

Anyone willing to help distribute raffle tickets or activity posters, such as Open Range Day or Ladies of Caliber can contact Dan or Bill. We always need helping hands.
